TIME

Today, with the ring of the sun, has dawned a new day
The time is unessential, for
moments can last forever.

Special moments like these are present
in every day. Each with the
happiness of the last. Each fulfilling.
Moments, hours, days, time is always.

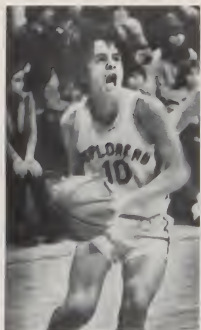

Laughter rises above the sorrow.
We remember good times better.
For now though, time passes,
and memories become our friend.

We wave goodbye to time, to
our friends. Our moments together
are comforting. As they leave us,
we think back on time, on ourselves.

SPORTS

The 1978 football season was a good one for the Explorers. They ended the regular season play with a 9-0 record, which qualified them for a berth in the state playoffs. At Murphysboro, the Explorers put up a good fight, but lost, 28-3, giving them a 9-1 record.

We would like to congratulate the 1978 Explorers for their terrific season of football play, and wish the 1979 Explorers the best of luck for next season.

VOICE OF SILENCE

Here as I gaze into the sky
the clouds across it race
At times the trees will hide the sun
at times it warms my face.

On grass so green and soft I lie
and listen to the lake.
The silence wakes me to a thought
I'd had no time to make.

It seems to me that nature speaks
to me with silent screams.
It wants to speak within all men
with me to be its means.

The earth provides the most it can
but that seems not enough
The men have wasted all it gave
and now they have to "rough".

If men were not so careless in
their use of what they had
And if they had observed some more,
things might not be so bad.

All using words with some relief,
its message has been heard
And now it hopes the message spreads
through use of mouth and word.

The silence is achieved again,
my mind has time to rest.
The voice of silence woke it once
but it was for the best.

children were asked to perform a series of 10 trials of the task. The first trial was a practice trial and the remaining nine trials were recorded. The mean of the last nine trials was used for analysis. The children were then asked to perform the task again, this time with their eyes closed. The same procedure was followed for the eyes closed condition.

The children were then asked to perform the task again, this time with their eyes open and their feet on the ground. The same procedure was followed for the eyes open condition.
